### ASSASSINATIONS FATE OF CHINESE REVOLT LEADERS

Three Killed While Attending  
Military Conference at  
Canton

### DIPLOMAT TSEN MAY BE NEXT PRESIDENT

Has Been Active in Opposing  
Yuan; Provinces Plan  
Republic

(Associated Press by Federal Wireless)  
PEKING, China, April 13.—President Yuan has telegraphed to the revolutionary leaders urging an end of hostilities in order to prevent foreign intervention.

SHANGHAI, China, April 13.—The governor of Kiangsi has declared his independence of Yuan's government.

Ton Shokuei, representing Lung Kuang, the governor; Wang Kuang Ling, chief of police, and Tong Kok Tun, another revolutionary leader, have been assassinated while attending a military conference in Canton.

### SZE CHUEN PROVINCE IS EXPECTED TO ANNOUNCE ITS INDEPENDENCE SOON

(Special Cable to Nippon Jiji)  
TOKIO, Japan, April 13.—The province of Sze Chuen is expected to declare independence of Yuan Shih-Kai within the next few days. The revolutionists have taken all of the monarchical strongholds with the exception of one city, and it is expected that the military governor will announce the independence at any time. Sze Chuen is the largest province in China.

Yuan Shih-Kai is trying to spread the rumor that Japan will stand with the government party against the revolutionists. He stated today that he would not resign, and hinted that if the revolutionists did not cease their attacks Japan would step in and defeat the revolutionary army.

In Tokyo the assertion made by Yuan is not taken seriously, as Japan has remained neutral throughout the conflict, and the leaders here state that Japan will take no part in the Chinese question. The opinion appears to be in Tokyo circles that the revolutionists have a big advantage at the present time. Word has been received that Chikang has declared independence.

### TSEN CHUN HSUAN MAY BE PRESIDENT OF NEW REPUBLIC PROVINCES

(Special Cable to Nippon Jiji)  
TOKIO, Japan, April 13.—According to an authentic report from Canton, Tsen Chun Hsuan will be elected to head the new republican government which will be formed from the provinces now independent of the Yuan government.

Tsen Chun Hsuan is one of the leading diplomats of China and has made a name for himself in international affairs. He was the instigator of the second revolution, and when the rebels were defeated he fled to Singapore, where he became active in planning for another revolution after Yuan Shih-Kai had announced that he wished to become emperor. It is thought that Tsen Chun Hsuan will be the logical choice for premier, in case Dr. Sun Yat Sen is given the presidency, if Yuan is defeated.

### OAHU RIFLEMEN TO BE TRAINED BY NEW SYSTEM

Orders Received From Washington Establish Musketry School at Schofield

With the arrival of Capt. Henry E. Eames on the army transport Sheridan this evening, a new departure in the instruction of the soldier on Oahu—a branch school of musketry—will be taken in hand.

Captain Eames comes to Hawaii from the 28th infantry, having been connected with the School of Musketry at Fort Sill, Oklahoma. He is transferred by orders of the war department at Washington, which has directed the establishment of a branch school here.

It is not stated yet just when the school will begin here, though this will be in the near future, probably depending upon Capt. Eames' plans in the matter. It is very likely that Schofield Barracks will be chosen as its location. A school of this sort will save the expenses formerly necessary through transporting soldiers to the mainland for musketry courses.

Both officers and men will be eligible for enrolment, and the course will ordinarily last for three months for each group. The school is to be established on a permanent basis here. Army officers point out that the establishment of the course does not mean the erection of a group of buildings, as the present target ranges and galleries will be used. Instruction will be given in the art of handling the rifle and the regulation of fire.

Captain Eames is a recognized authority on musketry. He is the author of a book, "The Rifle in War," and has made a careful study of the subject. He was graduated from West Point in 1901; from the Infantry and Cavalry School, with honors, in 1906; from the Staff College in 1907, and from the Army War College in 1912. He has served with several different regiments of infantry.

### SHERIFF FILES RETURN IN O. A. STEVEN CASE

Sheriff Charles H. Rose today filed in supreme court his return to the temporary writ of habeas corpus issued by Chief Justice A. G. M. Robertson in the case of O. A. Steven, charged in circuit court with illegal emigrant recruiting. The return states the facts in the Steven case from the day of his arrest up to his release from the sheriff's custody late Tuesday afternoon on bond in the sum of \$500. Argument on the writ of habeas corpus will be had in supreme court at 10 o'clock tomorrow morning. Attorney J. W. Cathart is assisting the city and county in the prosecution.

### TRAVERSE IS FILED IN O. A. STEVEN CASE

Late this afternoon a traverse to the return made by Sheriff Rose in the O. A. Steven case was filed by the petitioner through his attorneys. The traverse claims "that as to the matters and things set forth and alleged in paragraph 6 of said return, the petitioner has no knowledge and information thereof, and denies the same, and leaves respondent Rose to his own proper proof thereof."

Paragraph 6 of the return states that William T. Carden, deputy city attorney, made oath to four separate charges.

### MAKEE'S SIDE OF CONTROVERSY IS GIVEN BY WILCOX

Manager Declares Small Planters are Satisfied and Facilities Good

### WASN'T HOMESTEADERS WHO STARTED "KICKS"

Thinks Kealia Natural Outlet for Kapaa Fields; Shows Railroad Development

"You can't find a single instance of a homestead cane grower who has had contracts with us that is not satisfied with the way we treated him," declared Gaylord P. Wilcox, manager of the O. A. Spaulding's famous Ma-Ray plantation, in a statement to the Star-Bulletin last Monday afternoon.

"We have handled the cane for all but eight of the 86 homesteaders in the Kapaa district," Wilcox continued, "and we have never heard a single kick from any of them. We have gone ahead quietly and fairly with all of them. It wasn't the homesteader who caused all of the present excitement."

Wilcox smiled when asked who was back of the excitement. "You probably know as well as I do," he said. "I prefer not to mention names."

Wilcox says he believes that Kealia is the natural outlet for Kapaa cane fields, and that in his opinion all of the homesteaders up there are "mighty" glad to see the Ma-Ray building in the district.

In a ride which a representative of the Star-Bulletin took with Wilcox on Monday, the company's railroad facilities were pointed out.

According to the manager the company now has approximately 30 miles of road, seven miles of which have been constructed in the last year and a half.

"Our roads reach now within a mile of any homestead," said Wilcox, "pointing out the manner in which the company is prepared to handle Kapaa cane. We will have all the rails down on our present construction work by harvest time."

Wilcox says that he would not advise long term agreements, but that is up to the homesteader.

One of the roads which the governor visited on Monday was the proposed route up Kapahi valley, where the company has run into difficulty with two homesteaders who are raising cassava for starch. These men objected to the road's being put through their lots, which were small, and it is likely the road will have to be built around, which will necessitate considerable tunneling and cutting.

One homesteader—a woman—who had had dealings with both the Lihue and Maake companies, was questioned as to her treatment from each.

"I don't like to enter into the argument either way," she declared, "but I'll say that I have had dealings with both companies. The Maake people always treated me fair, in every instance, and the Lihue people didn't. All of this talk about the Maake company treating the homesteader unfairly is nonsense."

### SAYS UTILITIES BODY NO RIGHT TO STAND BILL

That the trip which Charles R. Forbes made to Washington last winter was not for the purpose of handling any business with the Interstate Commerce commission and therefore not properly made at the expense of the utilities commission of the territory was one of the contentions of Judge A. A. Wilder before Judge Stuart this morning.

Wilder declared that expense incurred through dealing with the commerce body was the only kind that could be legally allowed for travel outside the territory.

"It doesn't make any difference whether Forbes is superintendent of public works, captain of the engineering company of the guard or chairman of the loan fund commissions of all the islands," he said, "the fact remains that he is at the head of the utilities commission and that this body is asked to stand some \$800 of his expenses on the trip."

Arguments, illuminated by frequent flashes of sarcasm from all the attorneys concerned, whirled away the forenoon hours. Besides Wilder, Robert W. Breckons, his attorney, and Shilo back and Smith of the attorney-general's office frequently gave vent to their feelings.

Auditor J. H. Fisher sat by the territorial attorneys during the morning and Judge J. Wesley Thompson sat at the bench with Judge Stuart.

### MAINLAND BOND MEN WANT INFORMATION ON HONOLULU'S ISSUES

Mayor Lane, the county clerk and the city treasurer are continually receiving requests for information on proposed bond issues of Honolulu. Bonds that will be issued against the franchise tax improvements have been the subject of numerous requests during the last few months. Now mainland bond houses are asking for information on the proposed city bond issue for roads and a city hall.

The latest query was received by Eugene Buffandeau, clerk to the board of supervisors, this morning. It was from Byrne & McDonnell, investment security brokers of San Francisco. It read:

"We note that there is contemplated for the city of Honolulu a bond issue of \$750,000 for a city hall, roads, etc."

"As soon as information relative to this sale of bonds is available we would appreciate your advising us in complete detail, as we may be interested to purchase these bonds."

## NATIVE HATRED

### CIVILIANS SHOOT INTO TROOPS ON MARCH, KILLING AMERICAN, THEN GENERAL MELEE RESULTS

Note From "First Chief" Presents Grave Issue—Undertone of Caution in Congress—Villa Reported Alive and Fleeing

(Associated Press Service by Federal Wireless)

WASHINGTON, D. C., April 13.—A sudden clash of American soldiers and civilians of the Mexican town of Parral has stirred the anger of the natives and there is danger of grave hostility to the U. S. forces.

This clash brought the first loss of life to the American expedition. Official advices say that the civilians of Parral fired into the ranks of the American troops while the latter were marching through, one American being killed and one wounded.

The Americans answered the fire, killing many Mexicans. The Carranza soldiers did not fire but with the Americans assisted in restoring order.

When the Americans entered the town, the local commander recalled the American assurances that the U. S. troops would not pass through towns. The excited citizens began firing on the troops. The situation quieted down but later another clash of the troops and civilians took place, resulting in many more deaths of Mexicans.

Carranza telegraphed the Mexican embassy here today. "Many deaths on both sides occurred at Parral." He has applied to the United States to recognize the danger of arousing the natives. He says the action of the American commander in entering the town was unwise.

WASHINGTON, D. C., April 13.—Gen. Venustiano Carranza's new note on the Mexican situation, presented to the state department today through Dr. Arredondo, the Mexican ambassador, raises a new issue for American diplomacy to confront while American soldiers are marching 400 miles deep in Mexican territory.

The note, asking that the American troops under Gen. Pershing be withdrawn immediately, is regarded as raising a grave question. State department and other officials are reticent about discussing it and will not predict the outcome. There are no indications that the troops will be withdrawn or that the situation will result in serious friction. The development, while not unexpected, has been received in Congress with divergent views and there is a general undertone of caution, and a disposition to continue the present stage of matters.

The note itself is 5000 words in length. It contends that the Americans crossed the Mexican border without permission, and that they should withdraw until a formal compact is made. The note further says that the United States incorrectly interpreted the note of March 10, to which attention was called on March 17. The present expedition, it is held, "has fulfilled its object so far as it is able to do so," and that sufficient Carranzistas are pursuing Villa to guarantee that he and his bands will be punished.

President Wilson has cancelled his speaking engagement for Saturday night in New York.

TORREON, Mexico, April 13.—Gen. Villa is today reported as headed down in the direction of Nazas, where the followers of Contreras and Cenicerros are marauding.

### FILIPINO KILLS COUNTRYMAN AND WOUNDS WOMAN

National Guardsmen on Maui Quarrel and One Shoots On Way to Drill

(Special Star-Bulletin Correspondence)  
WAILUKU, Maui, April 12.—Narciso Toyolo, a Filipino laborer of the Wailuku Sugar Company, and a member of the National Guard, shot and instantly killed another Filipino named Alfonso Darlang in the Filipino camp, some three miles beyond Wailuku, shortly after 7 o'clock last Sunday morning. He afterwards surrendered to the police and will be tried for first degree murder.

Besides killing his fellow countryman, Toyolo first fired a shot from a 38-caliber revolver at Mrs. Maria Rofino Bagoa, of whom he was jealous, inflicting a flesh wound in the right breast. The bullet, however, was deflected by a rib, and came out of the woman's back. She is in the Maluan hospital, but is not seriously hurt.

According to the police, the murder was a premeditated and cold-blooded one. The murderer and his victim had quarreled about the woman the previous night. She is a married woman, living with her husband in the camp, and seems to have been involved with both Toyolo and Darlang. After the quarrel, in which the husband was also involved, Toyolo went to a friend and borrowed a heavy army pattern Colt revolver, stating that he expected to go the following morning to Malaea to get into a gambling game, and might need it. Instead he met Darlang and other Filipinos on Sunday morning, all preparing to attend National Guard drill. He pretended to want to settle the trouble amicably, and sent for the woman in the case. As soon as she arrived he fired at her as she sat on one end of a bench, and then turned the gun

### ROBLEY'S WORK FOR Y. M. C. A. WINS SECRETARYSHIP

Directors Promote Official to Take Charge of Youths' Activities

In recognition of the splendid work accomplished by Samuel W. Robley in his various gymnasium, religious and boys' club activities in connection with the Y. M. C. A., the directors of the association at the regular monthly meeting held this afternoon, decided to promote him to the position of community boys' work secretary, having direct supervisory over all work for boys in and out of the association building.

Mr. Robley assumes all the duties under his new title September 1st of this year. In the past two years, he has had remarkable success in developing the number of boys' clubs, attendance, raising the necessary budgets, and his own organization, the Prison Aid Society, has already become an invaluable factor in community welfare work.

This was the largest directors' meeting ever held, only one out of the 15 members being absent. Myrtle Davis, secretary of the Tokio Association, addressed the members on Japanese work, and on the work being done locally for Orientals. The summer budget presented by Treasurer R. A. Cooke was adopted. Donald Ladd, who graduates from Dennison University this June, is to be the new fellowship secretary in charge of the boys' department in the association building.

upon Darlang, who was seated nearby. The murderer proceeded towards the main road, and when he met the police automobile surrounded himself. When searched, besides the revolver fired at her as she sat on one end of a bench, and then turned the gun
